

**STRUCTURAL SAFETY CERTIFICATE**

**Project: Design, Engineering, Procurement and Construction (EPC) of Up-gradation and Development of Regional Institute of Paramedical & Nursing Sciences (RIPANS), Aizawl**

Location: RIPANS, Aizawl

Client/Owner: RIPANS

Consultant: HLL Lifecare Ltd.

Contractor: KMV Projects Ltd.

This is to certify that the structural design of all the buildings, namely **100 Bedded Hospital, Indoor Sports Complex and Auditorium, Academic Block-IV, General Hostel Block, Guest House, M.S. Quarters, Staff/Nurse Quarters, Resident Doctors' Quarters** and associated structures of the above-mentioned project, is based on the architectural drawings of **M/s Creative Designer Associates (CDA), New Delhi – 110025.**

It is further certified that the structural design conforms to the requirements of all relevant and applicable Indian Standard Codes and the National Building Code of India with respect to structural safety in general and resistance to natural hazards, including earthquakes, in particular.

The structure has been designed in accordance with relevant Indian Standards and the construction has been carried out as per the approved structural drawings and in accordance with good engineering practices. Based on the design and site observations, the structure is structurally safe and stable under the designed loads and is fit for its intended use.
